

## **Don Wilson Paua Boon Leng - Write Up**

I, Don Wilson, Senior WSHE Manager from Straits Construction Singapore Pte Ltd is currently in charge of Workplace Safety, Health & Environmental (WSHE) matters for the organisation. I have been in the construction industry for more than 20 years in managing WSHE as well as spearheading to promote WSHE in the industry.

Throughout my career, I altruistically and meticulously mentored, groomed up and successfully influenced various individuals to become Safety Managers or Safety Professionals. Recently, one of our colleagues Mr Dinesh S/O Tangavelu won a position for the SCAL WSH Supervisor Awards 2022.

I also successfully helped various organisations that I had worked in to achieve a safe culture within the organisation and helped them win numerous and prestigious WSHE awards such as, RoSPA Health and Safety - Gold Medal Award, Safety and Health Award Recognition for Projects, SCAL WSH Innovation Award etc.

To further help and contribute to the industry, I stepped up to be involved in various task forces such as SCAL Safety Committee for Heat stress Management, Silica Task Force which is in collaboration with SCAL and Ministry Of Manpower, and Building and Construction Authority for Safe Management Measures for COVID-19.

On top of these, I was also nominated by RoSPA (UK) as a RoSPA award Ambassador in Singapore and was invited as a speaker on numerous platforms in Singapore to share my experiences in WSHE implementation as well as innovation. On the 6th of April 2021, I was invited as a speaker for WSH Conference to share the Safe Management Measures Plan which I had implemented to help the construction industry improve and ensure effective SMM is in place for a smooth resumption of construction works at the jobsite and protect site personnel's safety and health.
