As a safety officer you need to take the lead in the field of safety inside or outside the company you are working for and even inside the house. You must still be safe in your jurisdiction, it is your responsibility as a citizen with safety. You must be yourself, you must share your knowledge and you know about the safety conversation. You must also be able to accept your mistakes and understand the situation of the majority, receive ideas in each subject you know or even within the company you work for.

In the company before starting, the worker must have safety orientation so that the worker knows more about his rights to his job and also be able to explain the rules and regulations of the company. In the community, everyone should know their obligation as a citizen and they should know about safety and they also need to know that they have an obligation to the community about safety.
