

Sami Ullah - Write Up

Safety Training Management & Consultancy Chartered Professional with years of experience as a safety trainer, assessor, mentor and coach for the Petrochemical, Oil & Gas, Marine, Refining, Pipelines, and Power Distribution industries. I am currently working as a training specialist for one of the largest oil and gas companies of the Mena region.

I also hold two master's degrees in Business Administration and Safety Management from prestigious universities in addition to world-class memberships and certifications. Additionally, I hold certifications from CMIOSH UK, CRSP Canada, CSP, and SMS BCSP USA. I am currently pursuing an MSc in Safety & Risk Management Degree and Ph.D. in Industrial Engineering. Many organisations in the Middle East have benefited from my contributions to health and safety.

For the past several years, I have been responsible for planning, establishing, implementing, and maintaining a range of safety and environmental measures to ensure compliance with corporate and local standards. Training, motivating, and teaching people to achieve their best are my goals. Having lived and worked in the Middle East, I have come to understand the typical Gulf and Asian workers' behavior, traits, and attitudes, along with the factors influencing their work patterns. Besides assessing NVQ qualifications, I am also a tutor for NEBOSH qualifications (IGC, IOG, IFC, and PSM), IOSH (MS), IOSH (WS), and IBOEHS-USA. I volunteer for the IOSH UAE branch as vice-chair and professional development officer for the Middle East region.

As a member of the IOSH UAE Branch, I had the opportunity to contribute to the future of the organization and improve workplace safety. Serving as a volunteer throughout my career, I have raised workplace health and safety standards, provided support to members, shared information, and promoted a safe and healthy work environment.

Being nominated for the Safety Influencer Award 2022 is an honor and a pleasure.
