

Amitabh Bhattacharya - Write up

Visionary, strategist, multi-disciplinary teams, turn-around management, influencing without authority, and is a highly accomplished Health, Safety and Environmental (HSE) professional with 13 years of experience demonstrating excellence in the HSE management system mirrored with an extensive track record of achievement and often exceeds expectations.

I'm a Health, Safety and Environment (HSE) Professional working to better understand how Health, Safety and Environment motivates and shapes human behaviour. My expertise includes risk assessment, data analysis and interpretation, development, and implementation of Health, Safety and Environment with a sustainable management system. I influence the Health, Safety and Environment fraternity with daily LinkedIn posts in Health, Safety and Wellbeing, providing value to the people with insights and information to followers of approximately 9000 people. I'm an active member and Vice Chair of International Institute of Risk and Safety Management (IRSM) London for heading East India region, leading the branch, helping the community, and influencing by spreading knowledge and awareness to local people in terms of Safety, Health, Environment and Wellbeing. I am recognized in the work front by the senior management for my influencing role and making a paradigm shift. I'm a Community Volunteer for Robin Hood Army in India serving the local community people who are in need in terms of basic needs. I was featured in NEBOSH with an article at HSME Magazine, interviewed at Energy Dais, and I'm a Safety and Health Practitioner (SHP) International Rising Star.
