

Arvind Kumar - Write Up

A HSE professional with around 21 years of experience in planning and implementation through “HSE–INNOVATION”. I am passionate about saving lives and creating innocuous environments–“Serve to Save”–for a sustainable future. I have achieved educational skills with specialised training, and I am an expert in areas of Safety, Health & Environment in India and abroad in diversified sectors such as Nokia Networks, Mumbai International Airport, Ports, Customs & Free Zone Corporations-Govt. of Dubai, Tata Group, Knight Frank, and Delhi Fire Services.

I have interest towards teaching and training in associations within various universities and engineering colleges such as Amity University, GIATM. I have expertise in areas of Health, Safety and Environment, Fire Safety, ISO- 9001/ 14001/45001/SA8000, Social & Ethical Compliances, Energy & Sustainability, BCM- Business Continuity, CSR and GRI.

Some of the examples of HSE Innovations by me include automated mobile-based Permit-to-Work, in-Vehicle Monitoring System with biometric driver or passenger application, IOT-based Connected Climber Application, Incident Accident Management Online Archer Tool, and FE-36 based Fire detection and extinguishing system.

I was a HSE Speaker at various conferences and seminars such as Global Safety Excellence Award 2015- Helsinki, Finland, Global Conclave “Road Safety – An Operational Risk and Collaborative Solutions” 2018, Quest Forum’s India Hub conclave, TATA Docomo-Health and Safety speaker, and a speaker at Amity University.

I was awarded with Best Safety Professional Award 2016, 2017, 2018: IISSM, Govt. of India, British Safety Council Award- Year 2021 & 2020, Golden Peacock Safety Award 2018, Greentech Platinum Safety Award, Environment Gold Award: 2019, 2016, Telenor MAD award 2015, Vodafone Global H&S award: 2010, 2015, 2018 & 2020 and Quest Forum’s India Hub conclave Award.
